

# Table of Contents

## Preface

*Pio Bertani, Massimo Gagliani, Fabio Gorni*XV

## CHAPTER 1

### Failures in endodontics

An epidemiological and clinical analysis

*Massimo Gagliani, Fabio Gorni,  
Marco Martignoni*

1

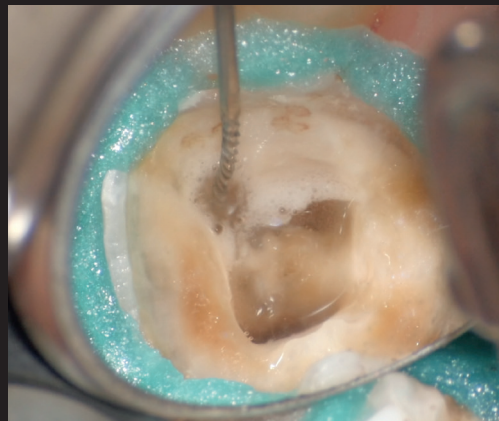

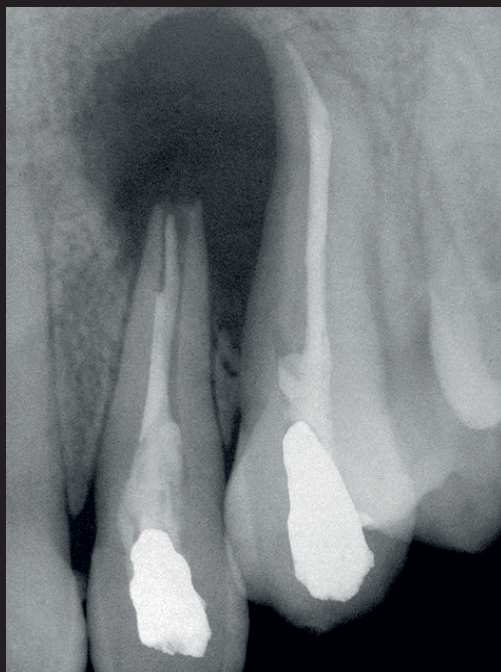

## CHAPTER 2

### Diagnostic procedures for endodontic failures

Clinical and radiological examinations  
useful for identifying periapical lesions

*Roberto Fornara, Filippo Cardinali*

71

## CHAPTER 3

### Clinical procedures for accessing the endodontic space

Techniques for removing all kinds  
of coronal and intracanal obstructions  
in the retreatment process

*Enrico Cassai, Massimo Giovarruscio,  
Francesca Cerutti*

133

## CHAPTER 4

### Disinfection and clinical protocols in retreatments

Instruments and clinical  
protocols for endodontic space  
disinfection

*Riccardo Tonini, Francesca Cerutti*

255

## CHAPTER 5

### Filling methods in retreatments

Traditional and alternative techniques  
for sealing the endodontic space

*Calogero Bugea, Arnaldo Castellucci*

285

## Acknowledgements

The authors would like to thank the following: Dr. Anna Maria Pirovano for the images on pages XVII and 183; Dr. Luciano Giardino for the histological images on page 44; Dr. Nicola Perrini for the histological image on page 45; Prof. Eugenio Brambilla for the numerous electron microscopy images on pages 6, 46, and 47 and for the endodontic microbiology section; Dr. Mario Badino for the advice on Chapter 2; Prof. Marco Scarpelli for the boxes on pages 198 and 199; Dr. Marco Femia and Dr. Sara Berri for the case report on page 80; Dr. Francesca Carrara for the figures on

## CHAPTER 6

### Post-retreatment phase: a guided tour

Temporal evolution of therapies:  
evaluation tools and methods

*Massimo Gagliani, Fabio Gorni,  
Marco Martignoni*

349

## CHAPTER 7

### Endoperiodontal lesions and perforations

Communication between the  
endodontium and the periodontium:  
anatomical pathways and iatrogenic errors

*Davide Guglielmi, Riccardo Tonini,  
Fabio Gorni*

373

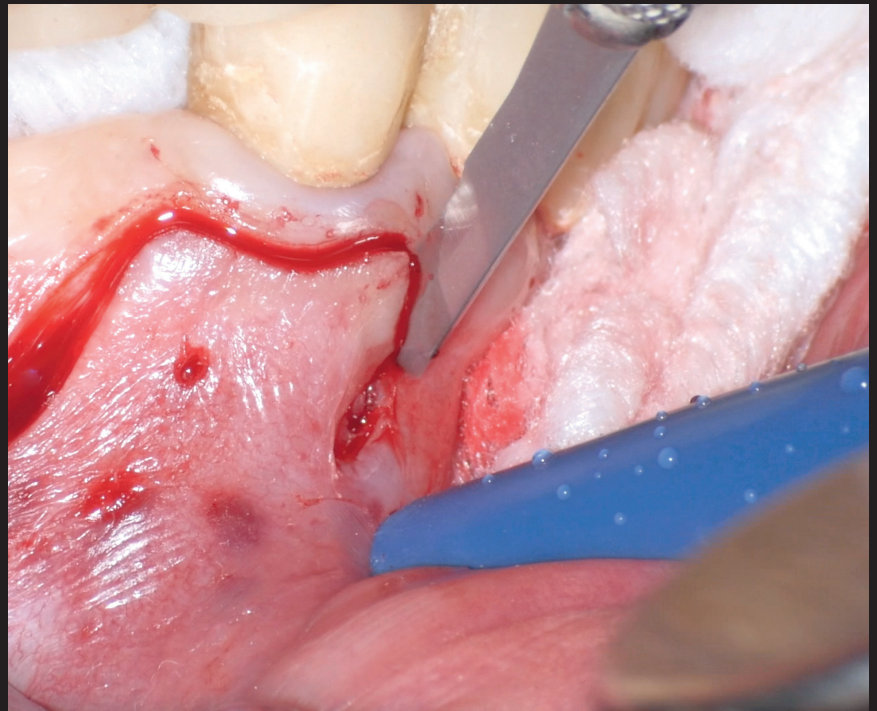

## CHAPTER 8

### Surgical Endodontics

An alternative approach for the  
treatment of periapical diseases

*Francesca Cerutti, Fabio Gorni*

407

## CHAPTER 9

### Restoration of the endodontically retreated tooth

Peculiarities and operating techniques

*Pio Bertani, Paolo Generali*

441

## CHAPTER 10

### Tooth or implant: criteria for solving the dilemma

Clinical indications and operating  
procedures for post-extraction implant  
placement

*Tiziano Testori, Matteo Deflorian, Riccardo Scaini,  
Silvio Taschieri, Massimo Del Fabbro*

479

page 215 (4.4a,b); Dr. Federico Berton for the SEM images on pages 242, 247, and 264;  
Dr. Alessandra Abbà and Giulia Palandrani for the images on pages 282 and 283.

Calogero Bugea would also like to thank Dr. Maurizio Porcino, Dr. Roberto Placella, Dr. Vittoria Eleonora Mazza, Dr. Roberto Luongo, Dr. Vanessa Villani, Dr. Ketty Bugea, Dr. Nicola Basile, Ms. Caterina De Giorgi, and Dr. Jordi P. Manauta.
